

Three points I wish to share with the FCC regarding the following K-Love radio stations that are in my area. Those stations are K-Love 88.9, 89.9 and 88.5.

My three points:

1. How K-Love serves me as a resident of the local community.

Answer:

K-Love serves me as a resident of the local community in many ways. It helps me to keep my faith in Jesus Christ strong. It's a great encouragement to me and also helps me share my faith with others. It also helps me be able to share a positive side of this world with others that need it.

2. The effect of the local community if K-Love were to be displaced by an LPFM broadcaster providing other programs.

Answer:

I would hate to guess what the effect of the loss of K-Love would mean to this community. I ask, what is the price of someone's life when it comes to them spending eternity in hell or heaven? I know I can't put a price on that. That's what you will have to decide if you choose to take away the K-Love stations in this area. Without K-Love where would the over 8,000 be that came to know Christ because of this ministry of K-Love. No telling how many of those calls were suicide calls and because of the ministry of K-Love those people are with us today. K-Love is an encouragement and is a positive message to the community. It has been said what you feed your mind you will become in time. I believe if K-Love was not in the community things would be worse than they are now because there would be no positive music or information coming from a radio station. No company and no business are willing to do the Lord's work. They would rather do what the majority or people want instead of what God would want them to do. So therefore I feel a great loss would be had by this community if K-Love were not here to help me and or us share the gospel and keep our faith strong.

3. Why I believe that the services provided by K-Love is in the public interest.

Answer:

I believe that the services provided by K-Love is in the interest of the public because everywhere I look I see bumper stickers on cars or I can walk into homes or businesses playing K-Love. People are searching for this type of service - ministry because they want what K-Love is offering which is Jesus Christ. Also there is not another station in this area that is playing this type of music and has pastors on call 24-7. I live in a small community and I see or hear K-Love a lot. Also when I share info about K-Love and someone checks it out they have come back and said thank you for showing or telling me about this positive radio station. It's also great to have a positive in all the negative of this world. I also believe it's my lawful right to have a station that plays this type of music. If K-Love was removed I feel my lawful rights would be violated.

K-Love is not only a Christian radio station but is a ministry of Jesus Christ. It doesn't matter what your church background is, where you come from or the color of your skin. At K-Love we are all family seeking to share the gospel and do God's work by sharing love to a hurting - desperate world that is in search of some positive and encouragement that only they can only get through Jesus and he has given K-Love the equipment to get the message out. So please don't stop the ministry of K-Love. I know I wouldn't want to have to answer to God when I die when K-Love was replaced. If you want someone to miss meeting Jesus and go to

hell then replace K-Love. If you want someone to have the chance to be encouraged or to have life then please keep K-Love and die knowing you won't have to answer for a lost soul. Take a few minutes and listen to K-Love and you will hear or see how God is working in this radio station. I pray you will make the right decision and will be blessed for it.
